

Apparatus Licence

Issued by Delegate of the Australian Communications and Media Authority

Licensee details

| | |
|------------------|--|
| Customer ID | 1137859 |
| Licensee | Department of Defence |
| Trading name | Defence Band Apparatus Licences |
| Licensee address | D DSO APW-GF-173, Anzac Park West PO Box 7953, CANBERRA BC, ACT 2610 |

Licence details

| | |
|--------------------|------------|
| Licence service | Defence |
| Licence subservice | Defence |
| Licence number | 1139682/1 |
| Callsign | VL1DEF |
| Date of issue | 12/09/2023 |
| Date of effect | 11/09/2023 |
| Date of expiry | 19/09/2024 |

Licence conditions

Your licence is subject to conditions set out in the *Radiocommunications Act 1992*. Your licence may also be subject to such other licence conditions as determined by the ACMA (in licence condition determinations) from time to time, and is also subject to special conditions as detailed on this licence.

The conditions that are imposed on a licence vary according to the type of licence issued, the service being operated and the section of the *Radiocommunications Act 1992* under which the licence has been issued. For further information about the conditions that apply to your licence, please contact the ACMA (see contact details below).

Rights of appeal

A decision by the ACMA to impose further conditions or revoke or vary the conditions of your licence may be reviewable. If you are affected by, and dissatisfied with, such a decision you may apply to the ACMA to have the ACMA reconsider the decision under section 288 of the *Radiocommunications Act 1992*.

An application for reconsideration must state the reasons for the request, and should be sent to the Customer Service Centre, Australian Communications and Media Authority, PO Box 78, Belconnen, ACT, 2616. Applications for review of decisions can be made using the R051 - Application for review of Decision form, available on the ACMA website.

Important

An application for the ACMA to reconsider a decision to impose or vary licence conditions must be made to the ACMA within 28 days of the day on which you are informed of the decision. An application for reconsideration made after that time may not be accepted.

ACMA contact details

Customer Service Centre

Special Conditions applying to licence no.: 1139682/1

The operation of stations must be in accordance with the Australian Radiofrequency Spectrum Plan and the Radio Regulations of the International Telecommunication Union.

Transmitter power, radiated power, emission bandwidth and antenna characteristics, where specified, are notional and may be varied where appropriate, provided that all other special conditions are satisfied.

Operation of space stations must be in accordance with frequency assignments recorded in the Master International Frequency Register (MIFR) of the International Telecommunication Union.

Transmitter emissions outside the frequency range authorised by this licence must comply with the spurious emission levels of Appendix 3 of the Radio Regulations of the International Telecommunication Union.

The operation of transmitters must not cause harmful interference to stations of services having a primary allocation in the Australian Radiofrequency Spectrum Plan except where otherwise agreed between the Department of Defence and the licensees of those stations.

Prior to the frequency assignments being recorded in the MIFR, space stations and earth stations may operate in accordance with the operating parameters published by the International Telecommunication Union in Special Sections of International Frequency Information Circulars and in accordance with any agreements reached as a result of an ITU frequency coordination process.

Transmissions must not occur in circumstances that result in harmful interference to stations outside of Australia where these stations are operating in accordance with the Radio Regulations of the International Telecommunication Union except where the transmissions are in accordance with any agreements reached as a result of an ITU frequency coordination process.

The assigned frequency is any frequency within the frequency range 6.233 MHz to 6.261 MHz, provided that the necessary bandwidth of any associated emissions is contained within this frequency range.

Advisory Notes applying to licence no.: 1139682/1

Conditions applicable to the operation of Defence station(s) authorised under this licence can be found in the Radiocommunications Licence Conditions (Apparatus Licence) Determination. Copies of this determination are available from the ACMA and from the ACMA home page (www.acma.gov.au).

Space stations are not authorised under this licence unless there is an entry recorded in either the Radiocommunications (Australian Space Objects) Determination or the Radiocommunications (Foreign Space Objects) Determination made by ACMA.

The Master International Frequency Register (MIFR) is maintained by the International Telecommunication Union (ITU) in accordance with the Radio Regulations.

The operation of receivers under this licence is on the basis that no protection is afforded for interference from stations of services having a primary allocation in the Australian radiofrequency spectrum plan except where otherwise agreed between the department of defence and the licensees of those stations.

Coordination agreements reached as a result of an ITU frequency coordination process are intended to minimise the potential for harmful interference to radiocommunications stations. A radiocommunications station operated prior to a frequency assignment being recorded in the MIFR cannot necessarily claim protection from harmful interference from other radiocommunications stations.

The memorandum of understanding between the Australian Communications and Media Authority and the Department of Defence contains matters relevant to the operation of radiocommunications stations under this licence.

Technical characteristics

Below is a summary of the technical characteristics of the licensed service. Further technical details not displayed here may be found on the ACMA website.

Station 1:

Area wide details:

| | |
|-----------|----------------|
| Area ID | 1 |
| Area name | Australia-wide |

Transmitter details

| | |
|---------------------|--------------|
| Assigned frequency | 6.247000 MHz |
| Bandwidth | 28.0000 kHz |
| Freq. assign. ID | 0001112805 |
| Transmitter power | 0 mW |
| EIRP | 100.00 W |
| Emission designator | 28K0XXX |

Antenna details

| | |
|----------------------|---|
| Antenna ID | 1 |
| Antenna polarisation | M - Mixed |
| Antenna azimuth | |
| Antenna height (m) | 0 |
| Antenna type | Unknown antenna type, size or specifications- |

Receiver details

| | |
|---------------------|--------------|
| Assigned frequency | 6.247000 MHz |
| Bandwidth | 28.0000 kHz |
| Freq. assign. ID | 0001112806 |
| Transmitter power | N/A |
| EIRP | N/A |
| Emission designator | 28K0XXX |

Antenna details

| | |
|----------------------|---|
| Antenna ID | 1 |
| Antenna polarisation | M - Mixed |
| Antenna azimuth | |
| Antenna height (m) | 0 |
| Antenna type | Unknown antenna type, size or specifications- |
