

Apparatus Licence

Issued by Delegate of the Australian Communications and Media Authority

Licensee details

Customer ID	20007490
Licensee	BUNDABERG NARROWCASTERS PTY. LTD.
Trading name	BUNDABERG NARROWCASTERS PTY. LTD.
Licensee address	Locked bag 2110, North Ryde, NSW 2113

Licence details

Licence service	Broadcasting - Narrowcasting Service (Fixed Tax)
Licence number	1171018/1
Date of issue	02/06/2023
Date of effect	02/06/2023
Date of expiry	08/06/2024

Licence conditions

Your licence is subject to conditions set out in the *Radiocommunications Act 1992*. Your licence may also be subject to such other licence conditions as determined by the ACMA (in licence condition determinations) from time to time, and is also subject to special conditions as detailed on this licence.

The conditions that are imposed on a licence vary according to the type of licence issued, the service being operated and the section of the *Radiocommunications Act 1992* under which the licence has been issued. For further information about the conditions that apply to your licence, please contact the ACMA (see contact details below).

Rights of appeal

A decision by the ACMA to impose further conditions or revoke or vary the conditions of your licence may be reviewable. If you are affected by, and dissatisfied with, such a decision you may apply to the ACMA to have the ACMA reconsider the decision under section 288 of the *Radiocommunications Act 1992*.

An application for reconsideration must state the reasons for the request, and should be sent to the address listed below. Applications for review of decisions can be made using the R051 - Application for review of Decision form, available on the ACMA website.

Important

An application for the ACMA to reconsider a decision to impose or vary licence conditions must be made to the ACMA within 28 days of the day on which you are informed of the decision. An application for reconsideration made after that time may not be accepted.

Special Conditions applying to licence no.: 1171018/1

The licensee, or any person authorised by the licensee to operate a radiocommunications transmitter under the licence, must comply with clauses 34, 36, 38, 39, 40, 41, 43, 44, 45, 46 and 52 in Part 4 of the Technical Planning Guidelines, determined under section 33 of the Broadcasting Services Act 1992, as though references in that Part to a section 102 broadcasting service were references to an open narrowcasting service provided pursuant to this transmitter licence, and references to the licence area of the licence were references to the coverage area of this transmitter licence, and references to the nominal location were references to the Australian Map Grid co-ordinates specified in the advisory notes to this licence.

The licensee must comply with the emission standard for the Australian Frequency Modulation Sound Broadcasting Service.

The licensee must ensure that no harmful interference shall be caused to the operation of any radiocommunication station or service. If the operation of the transmitter is causing interference to other services, the licensee is required at the licensee's own expense, to adjust, or fit devices to, receivers in order to eliminate or minimise that interference.

This licence must only be used for the purpose of providing an open narrowcasting service, as defined in section 18 of the Broadcasting Services Act 1992.

the licensee, or any person authorised by the licensee to operate a radiocommunications transmitter under the licence, must commence to provide an open narrowcasting service under the licence within six months of being issued the licence, or within such longer period as is notified in writing by the Australian Communications and Media Authority.

The licensee, or any person authorised by the licensee to operate a radiocommunications transmitter under the licence, must follow the start-up procedure set out in Part 1 of the Technical Planning Guidelines determined under section 33 of the Broadcasting Services Act 1992, as though references in that Part to a section 102 broadcasting service were references to an open narrowcasting service provided pursuant to this transmitter licence, and references to the licence area of the licence were references to the coverage area of this transmitter licence.

Advisory Notes applying to licence no.: 1171018/1

Conditions applicable to the operation of Narrowcasting Service station(s) authorised under this licence can be found in the Radiocommunications Licence Conditions (Apparatus Licence) Determination and the Radiocommunications Licence Conditions (Broadcasting Licence) Determination. Copies of these determinations are available from the ACMA and from the ACMA home page (www.acma.gov.au).

Technical characteristics

Below is a summary of the technical characteristics of the licensed service. Further technical details not displayed here may be found on the ACMA website.

Station 1:

Site details

Site ID	460332
Site address	Comms Site, BLAIR ATHOL MINE QLD 4721
Co-ordinates (GDA94)	Latitude: -22.691044 Longitude: 147.520476

Transmitter details

General Area Served	Blair Athol
Technical specification no.	10012318
Assigned frequency	97.5 MHz
Freq. assign. ID	0001410777
Emission designator	200KF8EHF
Antenna Polarisation	V - Vertical linear
Antenna height (m)	80

Radiation pattern details

Bearing or Sector (°T)	Maximum ERP (W)
0 - 360	50.0

Special Conditions applying to Station 1

Carrier Frequency : 97.500 MHz

The coverage area of this transmission is described as that area within a radius of 7 kilometres measured from a point with the following AMG co-ordinates : Zone : 55; Easting : 553347; Northing : 7490408. This point is the same as the transmitter location. This transmission is permitted within the defined coverage area. The transmitter may be established at an alternative site to the nominal site only within this area. A change in site from the nominal site is to be in accordance with the Change of Transmitter Site Procedure of ABA's Technical Planning Guidelines and is not to result in a maximum field strength beyond the defined area in excess of that which would have been provided at the specified power and pattern from the nominal site.
