

# Apparatus Licence

Issued by Delegate of the Australian Communications and Media Authority

## Licensee details

Customer ID	1146773
Licensee	Abdul Hamdy
Trading name	Abdul Hamdy
Licensee address	275 The Boulevard, FAIRFIELD HEIGHTS, NSW 2165

## Licence details

Licence service	Broadcasting
Licence subservice	Narrowband Area Service station(s)
Licence number	12042413/1
Date of issue	08/08/2023
Date of effect	08/08/2023
Date of expiry	05/08/2024

## Licence conditions

Your licence is subject to conditions set out in the *Radiocommunications Act 1992*. Your licence may also be subject to such other licence conditions as determined by the ACMA (in licence condition determinations) from time to time, and is also subject to special conditions as detailed on this licence.

The conditions that are imposed on a licence vary according to the type of licence issued, the service being operated and the section of the *Radiocommunications Act 1992* under which the licence has been issued. For further information about the conditions that apply to your licence, please contact the ACMA (see contact details below).

### **Rights of appeal**

A decision by the ACMA to impose further conditions or revoke or vary the conditions of your licence may be reviewable. If you are affected by, and dissatisfied with, such a decision you may apply to the ACMA to have the ACMA reconsider the decision under section 288 of the *Radiocommunications Act 1992*.

An application for reconsideration must state the reasons for the request, and should be sent to the Customer Service Centre, Australian Communications and Media Authority, PO Box 78, Belconnen, ACT, 2616. Applications for review of decisions can be made using the R051 - Application for review of Decision form, available on the ACMA website.

### **Important**

An application for the ACMA to reconsider a decision to impose or vary licence conditions must be made to the ACMA within 28 days of the day on which you are informed of the decision. An application for reconsideration made after that time may not be accepted.

## ACMA contact details

Customer Service Centre  
PO Box 78  
BELCONNEN ACT 2616

Telephone: 1300 850 115  
Email: [info@acma.gov.au](mailto:info@acma.gov.au)

ACMA website: [www.acma.gov.au](http://www.acma.gov.au)

Certain information contained in this licence record will be disclosed in the Register of Radiocommunications Licences (RRL), established and maintained pursuant to Part 3.5 of the *Radiocommunications Act 1992*.

## **Advisory Notes applying to licence no.: 12042413/1**

Conditions applicable to the operation of Narrowband Area Service station(s) authorised under this licence can be found in the Radiocommunications Licence Conditions (Apparatus Licence) Determination and the Radiocommunications Licence Conditions (Broadcasting Licence) Determination. Copies of these determinations are available from the ACMA and from the ACMA home page ([www.acma.gov.au](http://www.acma.gov.au)).

## Technical characteristics

Below is a summary of the technical characteristics of the licensed service. Further technical details not displayed here may be found on the ACMA website.

### Main Station Site

### Station 1:

#### Site details

Site ID	5403		
Site address	43 Bridge St, HURSTVILLE NSW 2220		
Co-ordinates (GDA94)	Latitude: -33.96426	Longitude:	151.09395

#### Transmitter details

Assigned frequency	151.900 MHz
Bandwidth	25.0000 kHz
Freq. assign. ID	0004069466
Transmitter power	50.00 W
EIRP	83.00 W
Emission designator	16K0F3E

#### Antenna details

Antenna ID	70070
Antenna polarization	V - Vertical linear
Antenna azimuth	
Antenna height (m)	15
Antenna type	Dipole-D

### Special Conditions applying to Station 1

When the transmitter is coupled to an antenna the level of all discrete spurious components caused by the transmitter & measured at the connection to the antenna must not exceed -30 DBM. Broadband noise floor of the transmitter measured at the same point must not exceed -47 DBM in a 16 kHz bandwidth for frequency offsets greater than 300 kHz from the transmit frequency.

The level of all discrete spurious components, measured at the output of the transmitter, must not exceed -30dBm.

The level of power in the adjacent channel must not exceed -22dBm.

An efficient cavity filter must be fitted between the transmitter and the antenna.

Should interference to another licensed radiocommunications service be reported and ACMA considers that such interference arises from this NAS licence, then the ACMA may request that the licensee reduce the radiated power of the transmitter below the maximum permitted for the transmitter.

The service operated under this licence is not protected from and must not cause interference to VHF NAS Licences 489744 (151.85 MHz) and 1424242 (151.925 MHz).
