

Apparatus Licence

Issued by Delegate of the Australian Communications and Media Authority

Licensee details

Customer ID	30588
Licensee	Western Sydney Local Health District
Trading name	HIRPN Networks
Licensee address	Switchboard Westmead Hospital PO Box 533, WENTWORTHVILLE, NSW 2145

Licence details

Licence service	Fixed
Licence subservice	Point to Multipoint
Licence number	1206668/1
Callsign	AXN973
Date of issue	21/03/2024
Date of effect	21/03/2024
Date of expiry	31/03/2025

Licence conditions

Your licence is subject to conditions set out in the *Radiocommunications Act 1992*. Your licence may also be subject to such other licence conditions as determined by the ACMA (in licence condition determinations) from time to time, and is also subject to special conditions as detailed on this licence.

The conditions that are imposed on a licence vary according to the type of licence issued, the service being operated and the section of the *Radiocommunications Act 1992* under which the licence has been issued. For further information about the conditions that apply to your licence, please contact the ACMA (see contact details below).

Rights of appeal

A decision by the ACMA to impose further conditions or revoke or vary the conditions of your licence may be reviewable. If you are affected by, and dissatisfied with, such a decision you may apply to the ACMA to have the ACMA reconsider the decision under section 288 of the *Radiocommunications Act 1992*.

An application for reconsideration must state the reasons for the request, and should be sent to the Customer Service Centre, Australian Communications and Media Authority, PO Box 78, Belconnen, ACT, 2616. Applications for review of decisions can be made using the R051 - Application for review of Decision form, available on the ACMA website.

Important

An application for the ACMA to reconsider a decision to impose or vary licence conditions must be made to the ACMA within 28 days of the day on which you are informed of the decision. An application for reconsideration made after that time may not be accepted.

ACMA contact details

Customer Service Centre
PO Box 78
BELCONNEN ACT 2616

Telephone: 1300 850 115
Email: info@acma.gov.au

ACMA website: www.acma.gov.au

Advisory Notes applying to licence no.: 1206668/1

Conditions applicable to the operation of Point to Multipoint station(s) authorised under this licence can be found in the Radiocommunications Licence Conditions (Apparatus Licence) Determination and the Radiocommunications Licence Conditions (Fixed Licence) Determination, the 'fixed licence lcd'. Copies of these determinations are available from the ACMA and from the ACMA home page (www.acma.gov.au).

Technical characteristics

Below is a summary of the technical characteristics of the licensed service. Further technical details not displayed here may be found on the ACMA website.

Main Station Site

Station 1:

Site details

Site ID	3410
Site address	E Block Royal Alfred Princes Hospital Missenden Rd, CAMPERDOWN NSW 2050
Co-ordinates (GDA94)	Latitude: -33.889407 Longitude: 151.182765

Transmitter details

Assigned frequency	461.068750 MHz
Bandwidth	12.5000 kHz
Freq. assign. ID	0000625844
Transmitter power	5.00 W
EIRP	20.00 W
Emission designator	10K1F2D

Antenna details

Antenna ID	40117
Antenna polarisation	V - Vertical linear
Antenna azimuth	
Antenna height (m)	50
Antenna type	Parallel array of vertical dipoles-D

Receiver details

Assigned frequency	451.568750 MHz
Bandwidth	12.5000 kHz
Freq. assign. ID	0000625847
Transmitter power	N/A
EIRP	N/A
Emission designator	10K1F2D

Antenna details

Antenna ID	40117
Antenna polarisation	V - Vertical linear
Antenna azimuth	
Antenna height (m)	50
Antenna type	Parallel array of vertical dipoles-D

Advisory Notes applying to Station 1

This frequency band is currently under review to accommodate changes in technology. This review may lead to a requirement to change frequency or to cease transmission.

Special Conditions applying to Station 1

An efficient cavity filter must be fitted between the receiver and the antenna.

An efficient cavity filter must be fitted between the transmitter and the antenna.
