Licence conditions

Your licence is subject to conditions set out in the *Radiocommunications Act 1992*. Your licence may also be subject to such other licence conditions as determined by the ACMA (in licence condition determinations) from time to time, and is also subject to special conditions as detailed on this licence.

The conditions that are imposed on a licence vary according to the type of licence issued, the service being operated and the section of the *Radiocommunications Act 1992* under which the licence has been issued. For further information about the conditions that apply to your licence, please contact the ACMA (see contact details below).

Rights of appeal

A decision by the ACMA to impose further conditions or revoke or vary the conditions of your licence may be reviewable. If you are affected by, and dissatisfied with, such a decision you may apply to the ACMA to have the ACMA reconsider the decision under section 288 of the *Radiocommunications Act 1992*.

An application for reconsideration must state the reasons for the request, and should be sent to the address listed below. Applications for review of decisions can be made using the R051 - Application for review of Decision form, available on the ACMA website.

Important

An application for the ACMA to reconsider a decision to impose or vary licence conditions must be made to the ACMA within 28 days of the day on which you are informed of the decision. An application for reconsideration made after that time may not be accepted.

Certain information contained in this licence record will be disclosed in the Register of Radiocommunications Licences (RRL), established and maintained pursuant to Part 3.5 of the *Radiocommunications Act 1992*.

Special Conditions applying to licence no.: 1901422/1

The licensee is subject to section 4 of Part 1, and Parts 2, 3 and 4 of the Radiocommunications Licence Conditions (Apparatus Licence) Determination 2003, as in force from time to time. For this special condition, the reference to paragraph 107(1)(f) of the Radiocommunications Act 1992 in Part 2 of the determination should be read as a reference to paragraph 109B(1)(t) of that Act. A copy of the determination is available from ACMA (www.acma.gov.au) or the Federal Register of Legislative Instruments (www.frli.gov.au).

Advisory Notes applying to licence no.: 1901422/1

Licensees should note that additional transmitters issued under this licence are subject to the start up procedure conditions specified in Part 1 of the Broadcasting Services (Technical Planning) Guidelines 2007 (the TPGs). Licensees are also subject to conditions specified in Part 8 of the TPGs relating to the management of interference, including but not limited to, interference to an analog television service, digital television service, or digital radio broadcasting service. This includes unacceptable interference to a service on the unassigned sixth channel (VHF Channel 10). In addition, under Part 8 of the TPGs licensees are subject to the condition that a licensee must, in consultation with affected parties, resolve complaints of interference to other services provided by radiocommunications licensees if that interference is caused by operation of the digital radio multiplex transmitter.
