

Apparatus Licence

Issued by Delegate of the Australian Communications and Media Authority

Licensee details

Customer ID	1157745
Licensee	Pilbara Iron Company (Services) Pty Ltd
Licensee address	PO Box 842 (Dan Abraham, Drop Point D059), KARRATHA, WA 6714

Licence details

Licence service	Fixed
Licence subservice	Point to Multipoint
Licence number	1954444/1
Callsign	VZK583
Date of issue	19/04/2024
Date of effect	18/04/2024
Date of expiry	18/04/2025

Licence conditions

Your licence is subject to conditions set out in the *Radiocommunications Act 1992*. Your licence may also be subject to such other licence conditions as determined by the ACMA (in licence condition determinations) from time to time, and is also subject to special conditions as detailed on this licence.

The conditions that are imposed on a licence vary according to the type of licence issued, the service being operated and the section of the *Radiocommunications Act 1992* under which the licence has been issued. For further information about the conditions that apply to your licence, please contact the ACMA (see contact details below).

Rights of appeal

A decision by the ACMA to impose further conditions or revoke or vary the conditions of your licence may be reviewable. If you are affected by, and dissatisfied with, such a decision you may apply to the ACMA to have the ACMA reconsider the decision under section 288 of the *Radiocommunications Act 1992*.

An application for reconsideration must state the reasons for the request, and should be sent to the Customer Service Centre, Australian Communications and Media Authority, PO Box 78, Belconnen, ACT, 2616. Applications for review of decisions can be made using the R051 - Application for review of Decision form, available on the ACMA website.

Important

An application for the ACMA to reconsider a decision to impose or vary licence conditions must be made to the ACMA within 28 days of the day on which you are informed of the decision. An application for reconsideration made after that time may not be accepted.

ACMA contact details

Customer Service Centre
PO Box 78
BELCONNEN ACT 2616

Telephone: 1300 850 115
Email: info@acma.gov.au

ACMA website: www.acma.gov.au

Advisory Notes applying to licence no.: 1954444/1

Conditions applicable to the operation of Point to Multipoint station(s) authorised under this licence can be found in the Radiocommunications Licence Conditions (Apparatus Licence) Determination and the Radiocommunications Licence Conditions (Fixed Licence) Determination, the 'fixed licence lcd'. Copies of these determinations are available from the ACMA and from the ACMA home page (www.acma.gov.au).

Technical characteristics

Below is a summary of the technical characteristics of the licensed service. Further technical details not displayed here may be found on the ACMA website.

Main Station Site

Station 1:

Site details

Site ID	38307
Site address	KP5 Robe River Mining Comms Site, off Cape Lambert Rd 5km N of Wickham, WICKHAM WA 6718
Co-ordinates (GDA94)	Latitude: -20.632696 Longitude: 117.152738

Transmitter details

Assigned frequency	3.65500000 GHz
Bandwidth	30.000000 MHz
Freq. assign. ID	0000799237
Transmitter power	2.40 W
EIRP	120.00 W
Emission designator	30M0D1D

Antenna details

Antenna ID	80981
Antenna polarisation	SR - Right-hand slant
Antenna azimuth	250.00
Antenna height (m)	25
Antenna type	Flat Plane-R

Receiver details

Assigned frequency	3.65500000 GHz
Bandwidth	30.000000 MHz
Freq. assign. ID	0000799240
Transmitter power	N/A
EIRP	N/A
Emission designator	30M0D1D

Antenna details

Antenna ID	80981
Antenna polarisation	SR - Right-hand slant
Antenna azimuth	250.00
Antenna height (m)	25
Antenna type	Flat Plane-R

Advisory Notes applying to Station 1

Allocations exist in the Australian Radiofrequency Spectrum Plan 2009 for the Radiolocation service in the 3100-3300 MHz and the 3300-3600 MHz bands on a primary or co-primary basis under the AUS 1 and AUS11 footnotes respectively. The licensee is advised that the operation of Radiolocation devices by Defence in these bands may result in interference to BWA base stations and user terminals which may reduce system performance.

Special Conditions applying to Station 1

The licensee must not deploy directional antennas using smaller necessary bandwidths than recorded on the Register of Radiocommunications Licences (RRL), unless all of the following conditions are met:

1. All devices are located at the site as specified on the RRL;
2. The power spectral density, determined from the transmitter power, antenna gain and necessary bandwidth details recorded on the RRL, is not to be exceeded at any time in any direction;
3. The necessary bandwidth of any emissions are contained within the upper and lower frequency limits assigned to the licensee;
4. The antenna specified on the RRL is used; and
5. The antenna parameters are as recorded on the RRL, including polarisation, height and tilt.
