Licence service	Broadcasting
Licence subservice	Narrowcasting Service (LPON)
Licence number	483245/5
Callsign	3V51
Date of issue	19/09/2023
Date of effect	19/09/2023
Date of expiry	23/10/2024

Licence conditions

Your licence is subject to conditions set out in the *Radiocommunications Act 1992*. Your licence may also be subject to such other licence conditions as determined by the ACMA (in licence condition determinations) from time to time, and is also subject to special conditions as detailed on this licence.

The conditions that are imposed on a licence vary according to the type of licence issued, the service being operated and the section of the *Radiocommunications Act 1992* under which the licence has been issued. For further information about the conditions that apply to your licence, please contact the ACMA (see contact details below).

Rights of appeal

A decision by the ACMA to impose further conditions or revoke or vary the conditions of your licence may be reviewable. If you are affected by, and dissatisfied with, such a decision you may apply to the ACMA to have the ACMA reconsider the decision under section 288 of the *Radiocommunications Act 1992*.

An application for reconsideration must state the reasons for the request, and should be sent to the Customer Service Centre, Australian Communications and Media Authority, PO Box 78, Belconnen, ACT, 2616. Applications for review of decisions can be made using the R051 - Application for review of Decision form, available on the ACMA website.

Important

An application for the ACMA to reconsider a decision to impose or vary licence conditions must be made to the ACMA within 28 days of the day on which you are informed of the decision. An application for reconsideration made after that time may not be accepted.

ACMA contact details

Customer Service Centre

ACMA website: www.acma.gov.au

Certain information contained in this licence record will be disclosed in the Register of Radiocommunications Licences (RRL), established and maintained pursuant to Part 3.5 of the *Radiocommunications Act 1992*.

Special Conditions applying to licence no.: 483245/5

The received signal in any area zoned residential (as determined by the Australian Bureau of Statistics data for towns and cities) shall not exceed 48 DBUV/M measured at a height of 10 metres above ground at any location more than 1 km from the antenna.

The licensee must comply with the emission standard for the Australian Frequency Modulation Sound Broadcasting Service.

This licence can only be used to provide a low-power open narrowcasting service.

This licence is issued or renewed only for the period for which the frequency has been made available under section 34 of the Broadcasting Services Act 1992.

The licensee, or any authorised person, is required to place advertisements in newspapers circulating within the licence area of the licence at least seven days before the commencement of transmissions. The advertisement should state that members of the public should contact the licensee, or authorised person, if the broadcast causes interference to other radiocommunications. The advertisement must detail the date and the time of the commencement of transmissions, the frequency being used and the appropriate person's contact details, including the address and telephone number of the person responsible for the transmissions.

The licensee must ensure that no harmful interference shall be caused to the operation of any radiocommunication station or service. If the operation of the transmitter is causing interference to other services, the licensee is required at the licensee's own expense, to adjust, or fit devices to, receivers in order to eliminate or minimise that interference.

Advisory Notes applying to licence no.: 483245/5

Conditions applicable to the operation of Narrowcasting Service station(s) authorised under this licence can be found in the Radiocommunications Licence Conditions (Apparatus Licence) Determination and the Radiocommunications Licence Conditions (Broadcasting Licence) Determination. Copies of these determinations are available from the ACMA and from the ACMA home page (www.acma.gov.au).

Operation of this service, 17.8 kilometres from the ABC FM transmitter at Mt Clay, Victoria, Site ID 42517, has the potential for reducing the coverage by this service such that it may not achieve its nominated coverage of 2 kilometres.

Attention is drawn to the special condition relating to the received signal not exceeding 48 DBUV/M (as set out above) and it is reiterated that this must be adhered to irrespective of any effect of interference on this service as a result of its being located closer to the ABC transmitter detailed above and any downgrading of its performance as a result.

Technical characteristics

Below is a summary of the technical characteristics of the licensed service. Further technical details not displayed here may be found on the ACMA website.

Main Station Site

Station 1:

Site details

Site ID	10031406		
Site address	LPON Site, 3 Duren Court, PORTLAND VIC		
Co-ordinates (GDA94)	Latitude: -38.361426	Longitude:	141.613131

Transmitter details

Assigned frequency	87.600 MHz
Bandwidth	200.0000 kHz
Freq. assign. ID	0000502676
Transmitter power	1.00 W
EIRP	1.64 W
Emission designator	200KF8EHF

Antenna details

Antenna ID	1180
Antenna polarization	V - Vertical linear
Antenna azimuth	
Antenna height (m)	6
Antenna type	Broadcasting transmit-
